---

PROJECTS

SkinStatic — Skincare Analysis App | Live | GitHub
Built a responsive React app with image uploads, API-driven analysis, reusable components, and results-focused UI.

Summarist — Audiobook Summary Platform | Live | GitHub
Developed a React platform with Firebase email/Google authentication, book discovery, routing, personal library, and audio playback.

CineVault — Movie Discovery App | Live | GitHub
Integrated the OMDb API into a React app for dynamic movie information and searchable discovery.

Rockstreamer — Video Browsing Platform | Live | GitHub
Created a YouTube-inspired interface with reusable components, organized video browsing, and responsive layouts.

PROFESSIONAL EXPERIENCE

Project Manager | Triangle MLS | *2021–2024*
Managed project schedules, deliverables, stakeholders, risks, and dependencies using Agile/Scrum practices to support product and process improvements.

Director of Communications | Triangle MLS | *2020–2021*
Led website content, digital communications, and multimedia campaigns, coordinating internal teams and technology vendors.

Producer & Media Editor | Multiple Organizations | *2011–2023*
Produced and edited broadcast, news, audio, video, and digital content. Coordinated production workflows, contributors, deadlines, and audience-focused storytelling.
